Professional

Our professional courses are tailored to individual needs. We can organise courses from the entry level professional, starting their new business and wanting to spend time learning professional wash techniques, through to more advanced levels for experienced valeters and detailers of wet sanding, machine polisher training, leather repair, headlight restoration, and more.

All courses come with appropriate certification, one to one training (groups upon request) and, if undertaken at our premises, lunch and refreshments.

For details on available courses and pricing, please get in touch with your requirements and we will be pleased to discuss options.

Enthusiast
